What is MTB Junior World Festival?

A Celebration of Young Talent

The Junior Festival is designed to create a unique highlight in the calendar for juniors who may lack the support or opportunities to compete at the highest levels, such as the riders did at the Youth European Championships. This is the only event just for JUNIOR-riders!

By addressing the challenges of high drop-out rates from U17 to Junior categories and further on in U23, this event aims to inspire and motivate young athletes who are still developing their skills.

This Festival offers a chance for juniors to connect with peers of the same age, work together on synergies and gain valuable experience while collecting points. Beyond the competition, it's a celebration of everyone's commitment to the sport, fostering a future where more athletes thrive in XCO cycling—whether as competitors or coaches.

At the end of the week, we crown the first woman and man as the Junior Festival King and Queen based on the sum of the best results across all five competitions, recognizing all participants as winners for their dedication and passion.

At the heart of the Junior Festival are four guiding values:

- 👉 **Believe** – In yourself, your journey, and your potential.
- 👉 **Connect** – With others, share experiences and grow together.
- 👉 **Rise** – Every ride is a step forward – on and off the bike.
- 👉 **Enjoy** – Because cycling should always bring joy, freedom and the thrill of adventure.
